

Organochlorine Pesticides and PCB Congeners in Fish Tissue

Innovative Controls to Support Data Quality

Manufactured with dried, farm raised catfish homogenized sieved to 20 mesh and fortified with analytes of interest. Value assignments established through internal and collaborative testing.

OC Pesticide in Fish

A greater than 25 gram vial of homogenized fish meal containing Heptachlor, DDT, DDE, Aldrin, and Mirex at levels approximate to regulatory action levels.

Part#: FC-836. \$250.00

PCB Congeners in Fish

A greater than 25 gram vial of homogenized fish meal containing PCB 18, 52, 153 and 180 at levels approximate to regulatory action levels.

Part#: FC-837. \$250.00
